Your contractor will enter the basic project details you've discussed (products/services, price, promotional offer selected). You'll review everything on the device before the contractor submits the transaction for your formal review and approval.

Approve transaction

You will receive an email from Synchrony Bank with a link to confirm transaction details. It is critical that you **confirm your transaction** by doing the following:

- Confirm identity by entering your birth date.
- Consent to receive information electronically (click "X" and then "Accept").
- Review transaction details and if correct, click 'eSign & Submit'.
- Once the work/service is complete, your contractor will submit the transaction to Synchrony Bank for payment.
- You will begin to receive monthly statements and can manage your account at **mysynchrony.com**.

Note: In some cases, depending on your project type, you will be asked to confirm project completion via a completion consent, using a process similar to the above, prior to the transaction being sent to Synchrony Bank for payment. If you are sent a completion consent request via email and do not take action within two weekdays, completion consent will process automatically and the transaction will be submitted to Synchrony Bank for payment.

You can also use your credit card to finance additional home improvement projects.
